

An Informative Full-day Seminar:

Health Issues In Construction

1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA)

2 Why You Need This Workshop . .

- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high costs of work-related injuries. Nationally, employers spent an estimated 50.8 billion on wage payments and medical care for workers hurt on the job. (*Liberty Mutual Safety Index 2005*) This is only a portion of the total costs of work-related injuries. Indirect costs such as overtime, training and lost productivity can also burden employers.
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces workers compensation costs, improves employee morale, and increases production and quality.

3 What You'll Learn . . .

This course will help educate and make the construction manager/worker aware of some of the typical health hazards and their potential health effects that are associated with the construction trade industry. This workshop is designed to give the student an overview of health issues that may be encountered in the construction industry. Topics covered include lead, silica, cadmium, and asbestos (2-hour awareness certification). Students will be able to recognize potential problems with exposures and how to protect themselves with the use of engineering controls and personal protective equipment.

Agenda

We offer a flexible program agenda to emphasize the construction topics you want most.

- ▶ Lead Awareness
- ▶ The Dangers Of Silica
- ▶ Cadmium Awareness
- ▶ Asbestos Awareness - 2 Hour Certification

All meetings are accessible and barrier free. Please contact the cosponsor or CET Division, at least two weeks in advance, to request necessary accommodations.

Facilitator

Faciliator

Jim Dykes *Construction Safety Consultant, MIOSHA, CET Division*

Jim Dykes began his career with MIOSHA in 2001 as a compliance officer with the Construction Safety and Health Division. Although an effective compliance officer, Jim had an interest in the teaching and consulting aspects of MIOSHA. He then joined the Consultation Education and Training Division in December of 2004 as a traditional consultant specializing in Construction safety. In his capacity as a construction consultant, Jim will service the Upper Peninsula and several counties in the lower Peninsula.

Cindy Zastrow *Industrial Hygienist, MIOSHA, CET Division*

Cindy L. Zastrow was appointed to the MIOSHA Consultation Education and Training Division in 2004 as an Industrial Hygienist, bringing with her over 11 years of experience in Safety, Health, and Emergency Services. Based near Saginaw, Cindy provides industrial hygiene services for the Northern part of Michigan as well as the Upper Peninsula.

Program Details
